

**DEPARTMENT OF TOXIC SUBSTANCES CONTROL  
HAZARDOUS WASTE MANAGEMENT PROGRAM  
MANAGEMENT MEMO RESCISSION DOCUMENT**

**MANAGEMENT MEMO: #EO- MM #90-001**

**TITLE:** Hazardous Waste Loadchecking at Municipal Landfills and Transfer Stations

**AFFECTED PROGRAMS:**

Statewide Compliance Division

**STATEMENT OF RESCISSION:**

Management Memo #EO-90-001-MM is hereby rescinded for the following reason(s):

Management Memo MM #90-001, Hazardous Waste Loadchecking at Municipal Landfills and Transfer Stations (April 16, 1990) provided guidance to owners and operators of municipal landfills regarding the management of hazardous wastes found in and removed from the nonhazardous wastes. Municipal landfills are regulated by the California Integrated Waste Management Board (CIWMB); a loadchecking program is one of the required components. Once the hazardous waste is identified, however, it comes under the regulation of the Department of Toxic Substances Control (DTSC). The owner/operator of the landfill becomes the “generator” of the hazardous waste.

While the regulatory status of the owner/operator as a “generator” has not changed since 1990, the regulatory citations and some of the terminology in the Management Memo were outdated. DTSC is therefore rescinding Management Memo #90-001, while concurrently developing a Fact Sheet with the same title, providing equivalent, but updated, guidance.

DTSC is rescinding Management Memo #90-001 effective on this date.
